

Dear Parents of Sweet Home CSD,

By now, many of you have heard: **Just for Kids** School Age Programs will be offering our 'new generation' of Academic and Enrichment programming for the elementary students, beginning September, 2022. As Director, I am writing to introduce myself and our program, and to discuss our unique offerings for students in grades Pre-Kindergarten-5th.

Just for Kids is extremely excited to begin a partnership with the District, families, and students. Families who sign up for the **Just for Kids** program will experience a wide variety of activities and choices designed to enrich and support learning, while maintaining a positive, fun, and structured environment. In addition to offering academic enrichment and homework help, our staff bring expertise in art, science, history, music, creative writing, sports and travel.

Thanks to a partnership with the District, **Just for Kids** is able to offer this service to the families at or below market rate, and free of cost for those receiving DSS or Workforce Development Subsidies. There are also scholarship opportunities available. To obtain subsidy information, contact our main office and we will be of assistance.

In general, the after school programs will run directly following the regular school day, from dismissal-6:00 PM, Mondays through Fridays, from mid-September through June, at each of the four elementary schools. A morning program is available (starts at 7:00AM) at Willow Ridge for all K-5th graders, and the District and parent will coordinate bussing to the other three elementary schools, if needed.

Please feel free to browse our website www.justforkidsonline.org for further details about **Just for Kids** in general, and for information about enrolling your child. We aim to open registration on **June 1st**. Please be sure to enroll by August 15th if interested in starting program attendance in September.

We'll also be coordinating registration events at each of the elementary schools, in early June with giveaways and vouchers! Stay tuned for more details!

If we can be of any assistance, please contact us at 716.639.8500 or be added to our inquiry list, by emailing info@justforkidsonline.org.

Thank you,

Kristina Kleeh, MA/CAS
